

REMARKS

The Office Action indicated that the subject matter of Claims 17 and 19 would be allowed if rewritten in independent form. Accordingly, Claim 1 has been amended to incorporate the allowable dependent Claim 19. Therefore, the dependent Claims 2-12 should also be allowable.

Amended Claim 18 is a dependent claim and does not introduce any new issues to the allowable independent Claim 1.

Independent Claim 15 is a method claim setting forth elements similar to the structure of the content synchronization system set forth in Claim 1. Claim 15 has, accordingly, been amended to incorporate the allowed subject matter of respectively Claim 17 and dependent Claim 9 in a method format, which is believed to also provide allowable subject matter.

Newly drafted Claim 20 represents the allowed subject matter of Claim 17 when presented further with the subject matter of dependent Claim 9 and the structure of the independent Claim 1. Thus, Claim 20 is allowable.

New Claim 21 also incorporates the indicated allowable subject matter of Claim 19, basically in the same method format of Claim 15 and it is believed the incorporation of the allowed dependent claim subject matter of Claim 19, likewise represents an indication of allowable subject matter as set forth in the Final Office Action.

It is now believed that the present application is now in condition for allowance and an early notification of the same is requested.
